**Subject:** Atlantic Coast Pipeline Project Update: Jan. 10, 2018

### **Atlantic Coast Pipeline Project Update Jan. 10, 2018**

- On Dec. 14, the Division of Water Resources issued a fifth request for additional information as part of the project's 401 water quality certification application.  
[DWR Dec. 14 Request for Additional Information](#)
- On Dec. 20, the Division of Energy, Mineral and Land Resources issued requests for additional information for the two general stormwater permit applications submitted by Atlantic Coast Pipeline, LLC. In addition, staff has determined that an individual stormwater permit will be required for a proposed contractor's yard that would be located in Cumberland County. No application has been received for the individual stormwater permit.

- On Jan. 4, the Division of Energy, Mineral and Land Resources issued a letter of disapproval for the erosion and sediment control plan for the northern portion of the pipeline route proposed for North Carolina.  
[Letter of Disapproval](#)
- On Jan. 9, the Division of Air Quality received an air quality modeling report in response to the Dec. 4 request for additional information from the applicant. The report is currently under review by air permitting staff. By law, once it is determined that all the required information has been submitted, the division director has 10 days to take a final permitting action.
